ACKNOWLEDGEMENTS

following people, in one way or another have played a part in the production of this Book:

Miss Josephine Lewkowicz of Siriba Teachers' College, Maseno, Kenya; and Mr Pat McKay of the English Language Unit, British Council, Nairobi, who made helpful comments and suggestions on the Introduction, Syllabus Outline and the first four Units.

Dr Hugh Pilkington and Ismail Adan Abdullahi who have read and commented on the Introduction, Dialogues and Unit 1, and who will continue to do the same for the Teacher's Book.

Dr Mohamed Ismail Fahie who has read and corrected each Unit as it was written, and has also helped with the proof reading of the Student's Book, along with his friends. His interest and encouragement have been greatly appreciated.

John Warner of S.I.M. Nairobi, who has checked and corrected the sections of Somali Grammar.

Keith Miller, whose clear and simple illustrations have made the Worksheets functional, interesting and appropriate.

Marian Mohamed who has done an expert job in the typing and the layout of the Book.

Fred Kniss and the Mennonite Board in East Africa located in Nairobi, who have encouraged and sponsored this project.

Dorothy Bender, Rosemary Hazy and Dan Gilrein who have all assisted in proof-reading.

The Somali teachers who have assisted in teaching parts of this course on previous occasions, and whose comments, corrections and suggestions have been very helpful.

The many students who have been "experimented on" in the past while this book was being put together, and whose suggestions and ideas for improvement have been incorporated where it has been possible.

Prof. B.W. Andezewski whose suggestions for corrections and improvements prior to the second reprint, have been much appreciated:

To each one of you:

INTRODUCTION

This Somali language course is an intensive course for beginners, to be taught by a Somali teacher. It has been set up using second language learning methods and techniques, and the aim of the course is to make language learning as functional as practical and as interesting as possible.

AURAL / ORAL EMPHASIS

Because of this, the main emphasis is on aural and oral skills, i.e., listening and speaking. From the beginning the students will be encouraged not to write anything, or read anything before first listening. The first step is to listen, then to try to understand what was said, then to try to reproduce it. This doesn't necessarily mean understanding every word. The emphasis is on training the ear to work, rather than relying on the eye and the written word. That will come later after adequate aural and oral preparation. At first this may be frustrating for some students. But they should be aware that as their aural powers increase, they will come to understand more and more.

The students will be encouraged from the beginning to use what they have learned, even if they do make mistakes. Communication is important. One of the aims is to help the student feel confident in using the language, and to enjoy learning it.

IMPORTANCE OF CORRECT INTONATION

In the classroom, the students should be encouraged to participate and interact as much as possible. They will listen to the Somali teacher and then repeat the words, paying attention to pronunciation, stress and rhythm as well as intonation. This is a very important part of trying to speak Somali correctly and understandably.

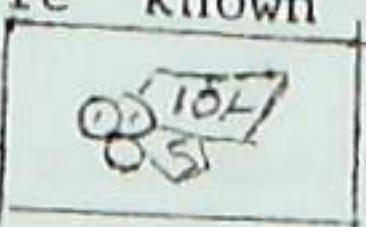

GENERAL APPROACH

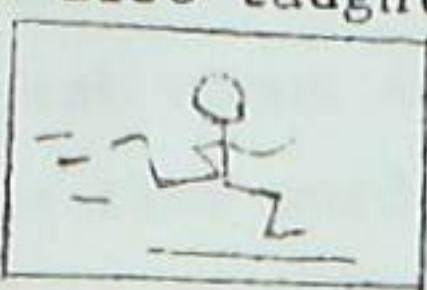

The emphasis of the course is not on grammar. That is, it does not follow the traditional grammatical method of teaching. Grammar will be taught, though, through, the activities in the classroom and through the Worksheets in the Student's Book. Memorizing conjugations of verbs will take place after the words and concepts have been heard, understood and reproduced. The teacher should try to avoid translating into English what is being said in Somali or what is being pictured or demonstrated before the students. The students should be encouraged to use their imaginations even if they sometimes make mistakes. Imagination plays a large part in language learning. The teacher should encourage the students to look for and recognize recurring sounds, patterns and signs in the language. This will help them to learn it more quickly. Summary Sheets of Grammatical points are found on Pages 95-113.

USE OF TEACHING AIDS

One of the key aids in learning will be the use of real things and pictures. This could be the real objects connected with the teaching of each lesson.

Intro.... Contd....

If this is to do with "shopping", objects like money, purse, basket-etc., will be brought to the classroom. Each one will be taught by its Somali name only. The English word will not be mentioned. This is to avoid the use of the middle "known" language and to use the "direct method", When students see  they should think "Waa lacag", not, "It is money, money = lacag".

Verbs are also taught through demonstration or through pictures. This picture should immediately elicit the response "Wuu ordaya". This without  method will help the students to think in Somali, first translating the words and concepts in their minds.

The 75 Worksheets in the Student's Book have also been prepared as Teaching Aids. They contain pictures relevant to the material being taught, Substitution Tables for oral practice, and sometimes written exercises.

UNIT DIVISION

The course is divided into 20 Units, each covering about 4 hours of instruction. The total would be about 80 hours of language learning. The course is meant to be intensive, and the pace fairly fast, with numerous changes of activity to maintain the students' interest. A cumulative method of teaching is used. This means that material introduced in one Unit is repeated in following units with new material added.

HOMEWORK

Homework is to study and try to absorb the material given in class. Each unit's work is built on the work of the previous units, so it is important to put time into study outside of class. A Tape Recorder can be used in the classroom to record drills and reading exercises, and these can then be listened to at home. At least one hour each day should also be spent with a Somali language helper practicing the oral exercises and conversing with him or her.

CONTENT OF THE COURSE

This course covers 80 hours of class work. By the end of that time, the students should not only know something about the pronunciation of the new and different sounds in Somali, some grammar rules, and some basic sentence structure, but they should also have an elementary grasp of the following ideas and concepts.

1. greet people in several ways;
2. understand and give basic commands, instructions and requests;
3. talk about themselves;
4. ask others for information about themselves;
5. tell where they are going and what they are doing;
6. go shopping; order food in a restaurant;

Intro..... Contd...

7. tell the time and ask the time;
8. understand the counting system;
9. speak about actions which are done regularly;
10. use time words and days of the week;
11. adapt the dialogues to different situations;
12. ask questions for information;
13. talk about events that happened in the past;
14. explain needs and advise others what they need;
15. express feelings and needs;
16. give reasons for feelings and needs;
17. describe things and people;
18. follow simple directions and ask for directions;
19. name parts of the body and speak about aches and pains;
20. explain position of people and things;
21. talk about things which belong to people; and
22. understand simple stories.

LANGUAGE AND CULTURE

Throughout the course the teacher will add any cultural information the students should know regarding the lessons they are learning. Language and culture cannot be separated. The teacher and students should also try to visit places together where they can observe language and culture in action, e.g., the local market.

COMPLETION OF COURSE

The students need to realise that completing this course is only the first step in learning Somali. From there on, it is up to them to build on this foundation by using what they have learned and by adding to it. If they show an interest in speaking Somali, they will receive encouragement and help from the Somali people. Every interchange received and understood is a brick on which to build further and an encouragement to giver and receiver.

EXPLANATIONS

BIBLIOGRAPHY: A complete list of books consulted in the preparation of this course will be given in the Teacher's Book.

REFERENCES: The following were used to check Somali spelling:
"Qaamuuuska Af-Soomaaliga" by Yaasiin C. Keenadiid
"Somali Grammar" by John Warner.

VARIATIONS: As there are a number of variations in spelling, vocabulary and pronunciation due to location or to personal preferences, it is impossible to include them all or to please everyone. It is suggested that you adapt the material in this Book to your own situation or location making changes in spelling, vocabulary (and pronunciation) as needed. Remember that the Book is intended to encourage oral skills, so we ask you to overlook any other imperfections you may find.

FEED-BACK: Any comments, suggestions, or further ideas are welcome.

GUIDELINES FOR STUDENTS

1. Decide that you are really going to learn Somali.
2. Be positive about it, even when you think you are making no progress.
3. Use your ears and your eyes. Listen and look.
4. Try to reproduce the sounds and intonation patterns you hear.
5. Gradually try to understand what is being said; then try to respond.
6. Listen well before you write anything.
7. Try to get the "idea" of what is said. It is not necessary to understand every word.
8. Do not try to analyse everything. Some things cannot be analysed.
9. Use your cassette machine. Bring it to class and record the Somali teacher in class. Then listen to it at home.
10. Make time to study and to absorb the vocabulary and grammatical structures you learn in class.
11. Make vocabulary and verb lists, or a Dictionary, and keep adding new words as you learn them. Flash Cards are useful "learning aids" too.
12. Use the Dialogues, Worksheets and Substitution Tables in the Book to practice asking and answering questions.
13. When you learn new word or phrase, try to use it as soon as possible.
14. Make friends with Somali people and learn from them.
15. Don't be afraid to ask questions or to ask someone to repeat what he or she said.
16. Don't be afraid to make mistakes. We learn from our mistakes.
17. Set goals for yourself and try to meet them. Test yourself from time to time.
18. Don't try to compete with others too much. Remember that every person learns at a different rate.
19. Learn from your fellow students as well as from the Somalis.
20. Encourage and help each other.

THE DIALOGUES

- Greetings and other expressions used in these dialogues can be replaced by locally used greetings and expressions.
- In some cases, an alternative expression or word has been given in brackets on the right hand side.
- The words underlined can be replaced by other words of the same part of speech.
- There are no Dialogues with Units 3, 8, 11 and 18
- These Dialogues are recorded on the cassettes which go with this book
- Try to learn the Dialogues by heart.

ABOUT THE SOMALI LANGUAGE

The Somali language is a Cushitic language, but it contains some sounds especially associated with the Arabic language. It also contains some Arabic words.

There are 6 unfamiliar consonant sounds in Somali of which 5 are not found in English. They are all represented by alphabetical signs familiar to the English alphabet, but having different pronunciation from English values.

You will need to accustom your ears to hearing these new sounds, and your tongue to saying them. This is not as difficult as you might think.

Listen carefully. Try to hear the new sounds. Then try to repeat them slowly. Don't give up. Keep trying.

THE 6 UNFAMILIAR CONSONANT SOUNDS

1. Khadija Khamiista khudrad bay keenaysaa.

Kh is an aspirated sound made in the throat.
It is an unvoiced velar fricative.

Most words contain the "Kh" sound are borrowed from the Arabic language.

This letter

This letter
is called "ayn".

2. Cali iyo Caasha macallinkii bay raaceen.

C is a harsh sound made in the pharynx.
It is a voiced pharyngal fricative.

Cali Caasha

3. Xalayto xafiiska lama xidhin.

X is an aspirated sound made in the pharynx.
It is an unvoiced pharyngal fricative.

4. Boqol qof baa shangqadh maqlay.

Q is a stop made at the back of the throat.
It is a light voiced uvular stop.

WORKSHEET 1

5. Gabartu dharkii oo dhan bay dhaqday.

(Gabadhu dharkii oo dhan bay maydhay.)

Dh is made by curling the tongue up and backward.
It is post-alveolar voiced stop; often implosive.

In some areas
the "Dh" be-
comes a rolled
"r", when in
final position
e.g. gabadh → gabr

This letter is called
"Hamsa" and it does
exist in English speech
(though it is not
called "Hamsa").

6. Lo' la'aan waa luqmad la'aan.

' is made by quickly closing and opening
the glottis. It is a glottal stop.

THE SOMALI ALPHABETCONSONANTS:

B T J X KH D R S SH DH C G F Q K L M N W H Y '

VOWELS:SHORT VOWELS

a e i o u

LONG VOWELS

aa ee ii oo uu

- For an explanation of the vowel system in Somali read pages ii and iii in the introduction to "Iska Wax u Qabso", Somali Language Learning manual.
- In Somali words, long vowels are usually stressed
e.g., xafiiska wanaágsan la'aán etc.

TONE: Somali is said to be a semitonal language and its tones are related to grammar. Some words, though spelt in the same way are distinguished by tone alone, but usually the context removes any ambiguities. A good example of the connection between tone and grammar are the differences between masculine and feminine nouns in the singular. In these pairs of words, the high even tone is represented by the acute accent ' , and the high falling tone by the grave accent ` .

gées	(M) horn	gées	(F) side, direction
gácan	(M) elephant's trunk	gacán	(F) hand
dameér	(M) donkey	dameér	(F) donkey

Note that when the accent is placed over the first vowel letter, it applies to the whole vowel, and not just to its first part.

UNIT 1:2,3WORKSHEET 2

- There are pairs of words in Somali which differ from each other only by one consonantal sound. Try to distinguish carefully these contrasting sounds in the following pairs of words.
- First, repeat all the words after the teacher. Begin with Group A. Read the word in Column 1, then the word in Column 2, e.g., qal khal.
- Then the teacher will say a word. He or she will tell you which group it is from. You must decide if the teacher is saying a word from Column 1 or Column 2.
- Now you try. You say a word from one of the groups. The teacher will try to guess what you are saying.
- Now practice in pairs, with the person sitting next to you.
- Use the pre-recorded cassette for Homework practice.

PAUL YUU YAHAY? MARYAM YAY TAHAY?USING THE VERB TO BEFor Oral Practice in PairsInstructions: S1 = Student 1 S2 = Student 2USE THESE PICTURES TO ASK AND ANSWER QUESTIONS

1. S1 and S2 both write 3 sentences about each person.
e.g., "Paul takhtar buu yahay. Ingris buu yahay...."
Do not let your partner see what you wrote.
2. S1 - now try to find out the information S2 has written.
To do this, you must ask S2 questions. e.g., "Paul, macallin muu yahay?"
etc. (Or: Paul, ma macallin buu yahay?)
3. S2 - must answer fully and correctly e.g., "Maya, macallin ma aha";
or "Haah, takhtar buu yahay," or, "Haah, wuu yahay."
4. Now change. S2 can ask the questions and S1 can answer.
5. You can make more pictures about more people.

MAKING QUESTIONS/INTERROGATIVES

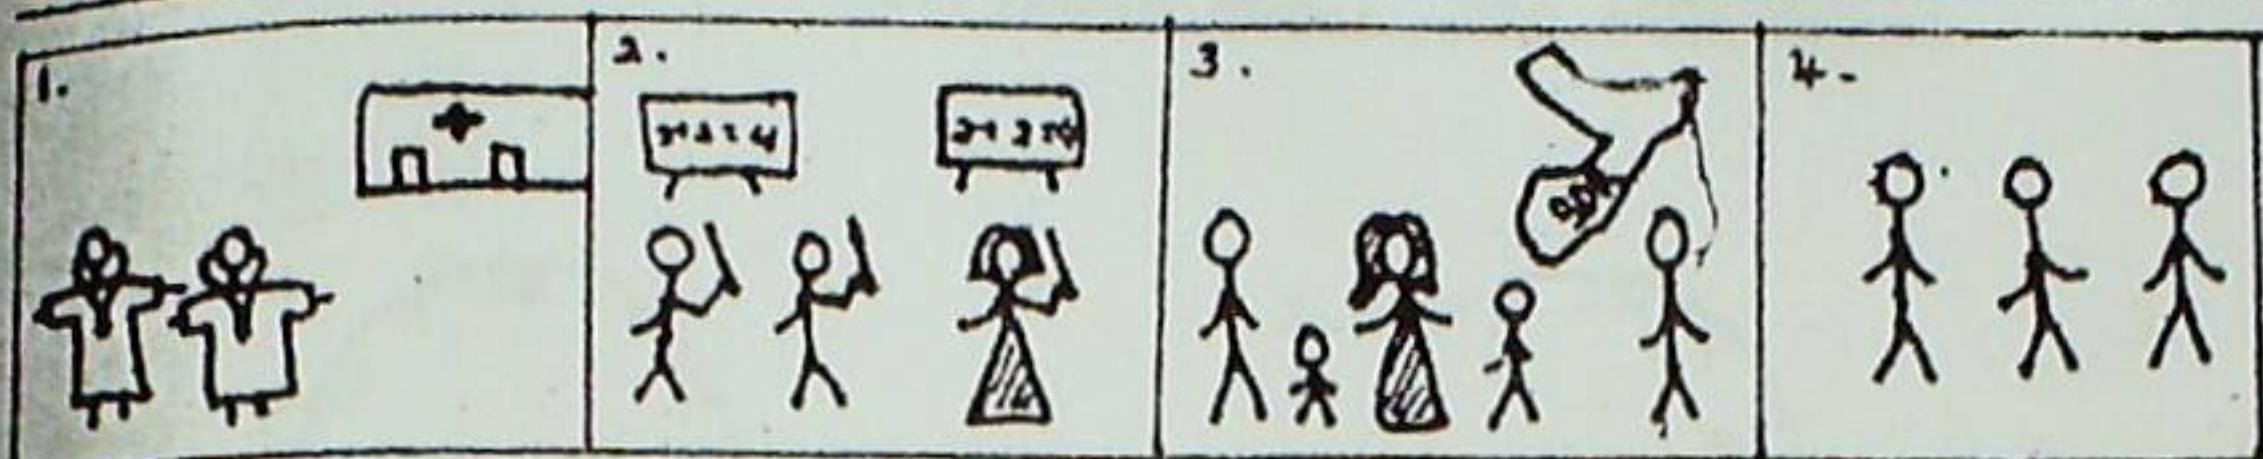

1. You have already learned that we can ask a simple question in 2 ways:
1. Nabad miyaa? 2. Ma nabad baa?
2. When we combine the interrogative word "ma" in Q2, with the personal pronoun indicators (-aan, -aad, -uu, -ay) we make the question words:

		Short Forms
-- miyaan?	- Takhtar miyaan ahay?	maan?
-- miyaad?	- Takhtar/takhtarad miyaad tahay?	maad?
-- miyuu?	- Takhtar miyuu yahay?	muu?
-- miyay?	- Takhtarad miyay tahay?	may?

3. In this book we will be using the short form (maan? maad? muu? may?) etc. But you need to recognize the longer form, if someone asks you a question using it.

MAKING POLITE OFFERS, REQUESTSAND ASKING PERMISSION

The Present Habitual Tense fulfills another very useful function. We can use it to ask permission to do something, to make polite offers or to ask someone what they would like us to do. It is usually used in the 1st person singular (I), but not always.

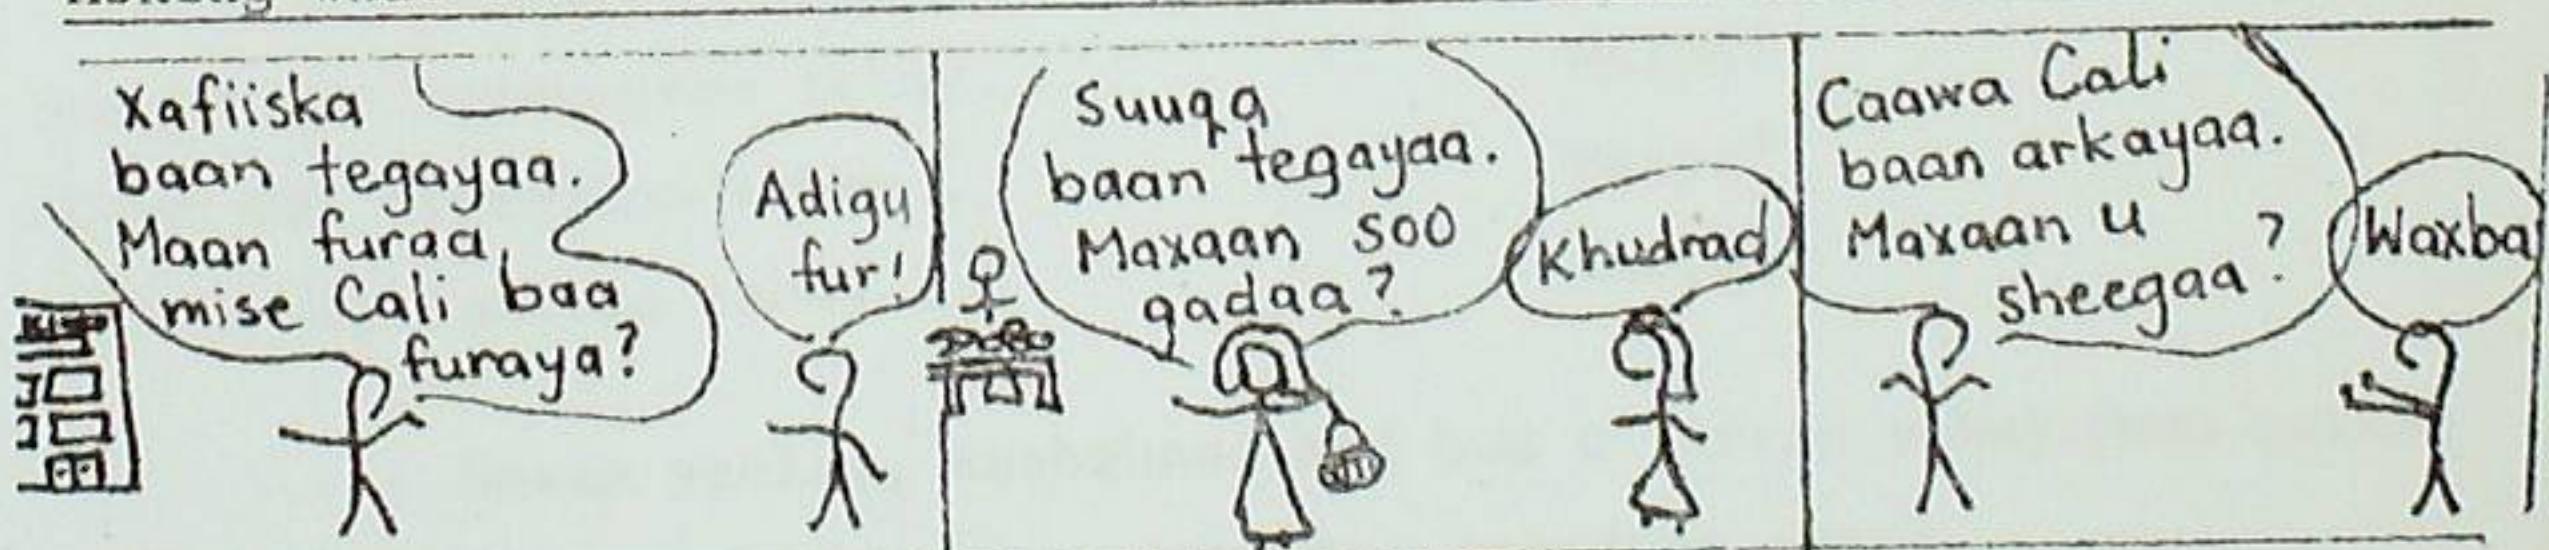

A: Asking permission to do something. (May I.....?)

B: Offering to do something for someone else. (Shall I?)

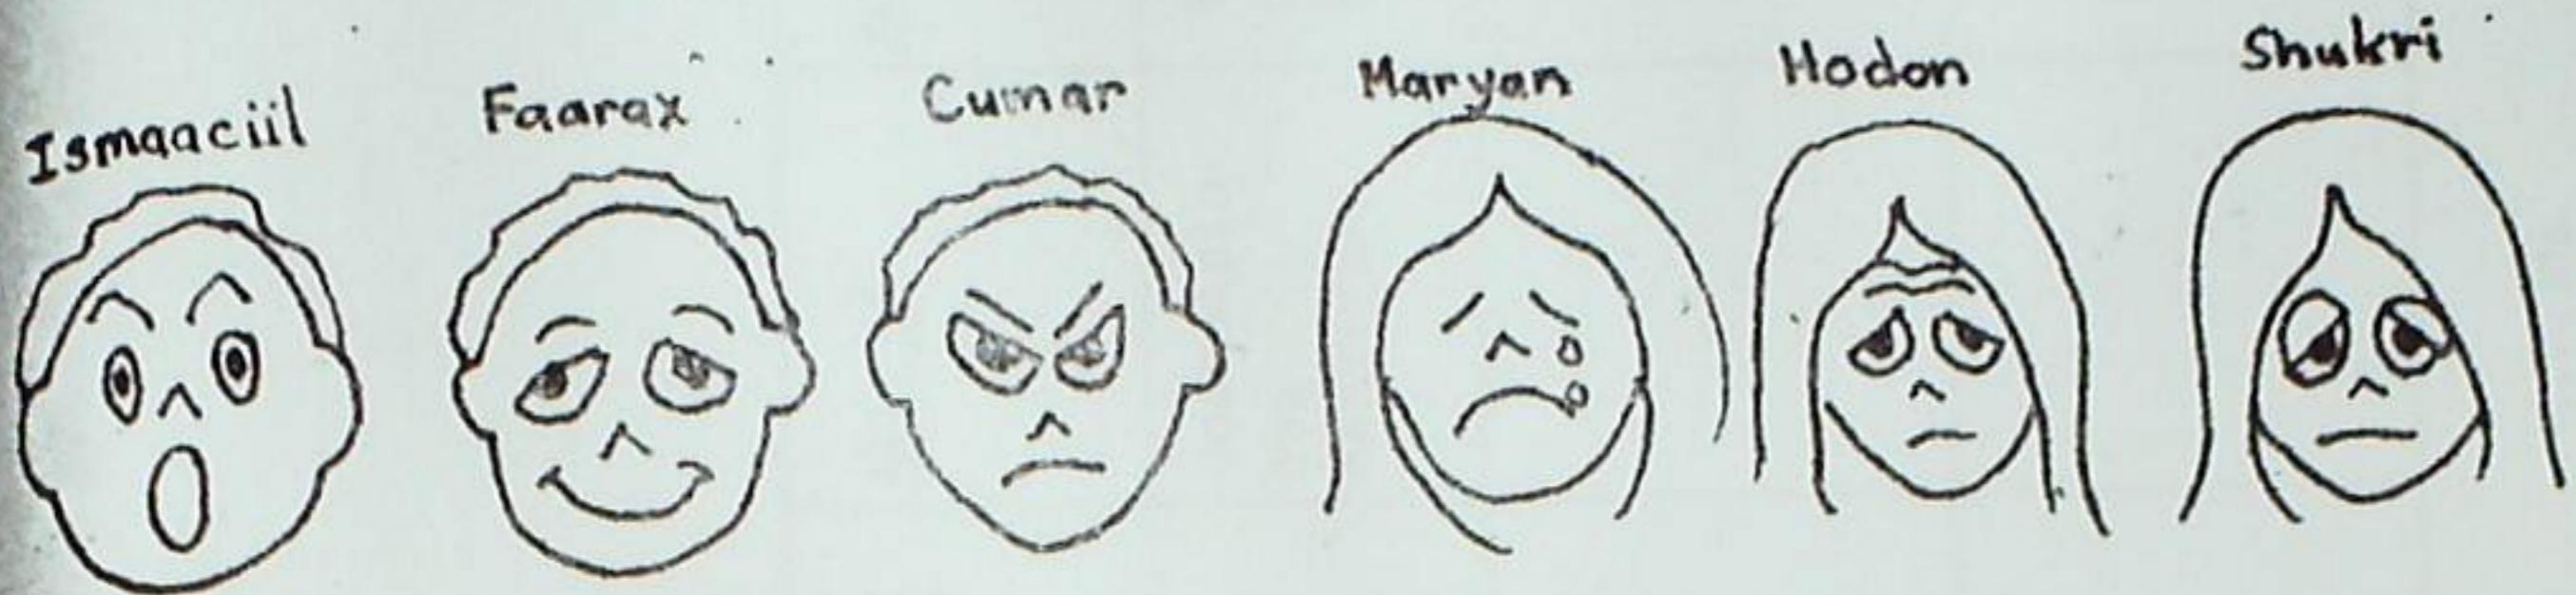

C: Asking what someone else wants you to do. (Am I to?) (What am I to...?)

Into which category would you put these?

1. "Cali wuu yimid. Halkan muu (ku) fadhiistaa?"
2. "Qadadu waa diyaar. Dadka maan u yeedhaa?"
3. "Dukaankii Cali Xuseen aaway?" "Hore weeye, ee maan ku tusaa?"
4. "Xaggaan u socdaa, bidixda mise midigta?"

JOOG AND JIR

A: Here are some of the ways in which these 2 Verbs are used:

Faduma iyo Cali iyo carruurtood **guriga bay ku jiraan.**
 Cali musquusha buu ku jiraa. Wuu maydhanayaa.
 Faduma jikada bay ku jirtaa.
 Maryam iyo Aadan qolka hurdada bay ku jiraan.
 Luula ardaaga bay joogtaa.
 Ismaaciil guriga hortiisa buu joogaa.

B: Uses:

- We use "joog" when we want to say that someone is "present" or to give a general location. This could be at the place where he works or where he is usually found. We use "joog" only when we talk about people.
- We use "ku jir" when we want to be more specific about the place where the person is, e.g., the particular room in the house. When we use "ku" with "jir" it means "in" or "inside".
- We can also use "jir" without "ku" to give the same meaning as "joog" to be present. "Jir" can be used for things and animals as well as for people.

Axmed comes
to Cali's
house to visit.

A: Cali muu joogaa?
 B: Haah, wuu joogaa.
 A: Xagguu ku jiraa?
 B: Qolka fadhiga buu ku jiraa.
 Wuu qadaynayaa.

Cali's wife
talks to him.

In some of these sentences
or "ku jir" could be used.

C: Isticmaal "joog" ama "jir" ama "ku jir". Buuxi meesha banaan:

1. Nuur xagguu _____? London buu _____.
2. Ardaydii (pl) aaway? Dugsiga bay _____.
3. Maamulaha baan rabaa; Xafiiska muu _____?
4. Haddeer Xalimo laba maalmood halkan bay _____.

Special use: Meeqa sannadood bay jirtaa? (Meeqaad jirtaa?)

ama: Immisa jir baad tahay?

SUGGESTIONS ON HOW
TO CONTINUE

1. Decide to do at least 3 hours Somali each week.
2. Find a suitable Somali teacher.
3. Go through these Worksheets again doing the oral exercises.
4. Use either of the following books with the help of a Somali teacher:
 - a. "Iska Wax u Qabso". Self Help Book.
 - b. "Somali Grammar" Vols 1, 2 and 3 by John Warner.
Concentrate on the Vocabulary and Grammar points which have not been covered in this course.
5. Try to use Somali as much as possible when talking with your teacher.
6. Keep a notebook and pen in your pocket and jot down new words and phrases you hear, and what you think the meaning is. Check it out later. Then use those words and phrases as soon as possible.
7. Try to use Somali wherever and whenever you can!

SOMETHING ABOUT NOUNSA: ORAL QUESTIONS TO CHECK STUDENTS' UNDERSTANDING

1. How many genders are there in Somali nouns ?
2. How can we recognize if a noun is masculine or feminine ?
3. What are the masculine suffixes ?
4. What are the feminine suffixes ?
5. What other meaning do these suffixes have ?
6. What is the answer to the question; "Waxani waa maxay ?"
7. What is the response to "I tus buugga ?"
8. What is the difference in meaning between these two answers:
a. Kani waa buug. b. Waa kan buuggii.

The answers are at the end of the Summary Sheet, on the next page.

B: SUMMARY BY THE TEACHER

1. A noun is the name of something - person, place or thing
e.g., Cali, London, book, pen.
2. Somali nouns are divided into two genders, masculine and feminine. This is a grammatical division, and it does not necessarily mean that that the particular masculine and feminine nouns have masculine or feminine characteristics.
3. "Kani waa buug" means "This is book". It is not possible to say "This is a book" in Somali, because there is no indefinite article meaning "a". "Buug" means "book" or "any book" which is not defined.
4. "I tus buugga", refers to a definite book, which has been mentioned previously and is known to speaker and listener. It is now defined, so the meaning is "Show me the book". In Somali the definite article "the" is a suffix and is added to the end of the nouns. e.g., buug-ga, qalin-ka
5. You will often see "Buugga" "Buuggii or Buuggu", in different kinds of questions and answers. The general meaning of all these is "the book" but the "ga" "gii" or "gu" endings convey additional meanings which you will learn as the course proceeds. "Waa kan buuggii", (Unit 2:2) is actually an unfinished sentence: "Here is the book (which you asked me to show you)". It is a response to "I tus buugga".

1.... contd...

The Masculine Nouns have 4 suffix endings - ga, ka, ha, and -a.
 The suffix "a" is used after nouns which end in a guttural sound like x, q, kh, e.g., "Ubaxa ii dhiib" (The answer: "Waa kan ubaxii".)

The Feminine Nouns have 2 suffixes endings - ta, and -da.

From the beginning you should try to learn each noun with its suffix. This is for two reasons.

- a. In a Somali sentence all other parts of speech (verbs, adjectives, pronouns) agree with the subject, so you need to know if your subject is M or F. This is called "Agreement".
- b. Other suffixes are added to the noun suffix to show: e.g., possession, (my book - buuggayga) and demonstration, (This book - buuggani). You cannot add these without adding the noun suffix first.

8. There are some patterns in noun suffix endings. e.g.,

1. Masculine nouns ending in "i" usually take a "ga" suffix
kursi - kursiga, guri - guriga, webi - webiga.
2. Feminine nouns ending in "ad" usually take a "da" suffix.
Warqad - warqadda, saacad - saacadda, subuurad - sabuuradda.
(These words are mostly of Arabic origin)

Try to look for "patterns" and begin to hear which suffix "sounds" right.

9. When a noun ends in "o" or "e", the vowel usually changes to "a" before adding the suffix ending e.g, fure - furaha-furahii
dhalo - dhalada - dhadadii.

10. Kani can be written Kan or Kanu, and Tani can be Tan or Tans. The meaning is the same, (This).

11. The two sentences: "Kani waa buug" and "Waa kan buuggii" can be confusing. They are answers to two different questions:

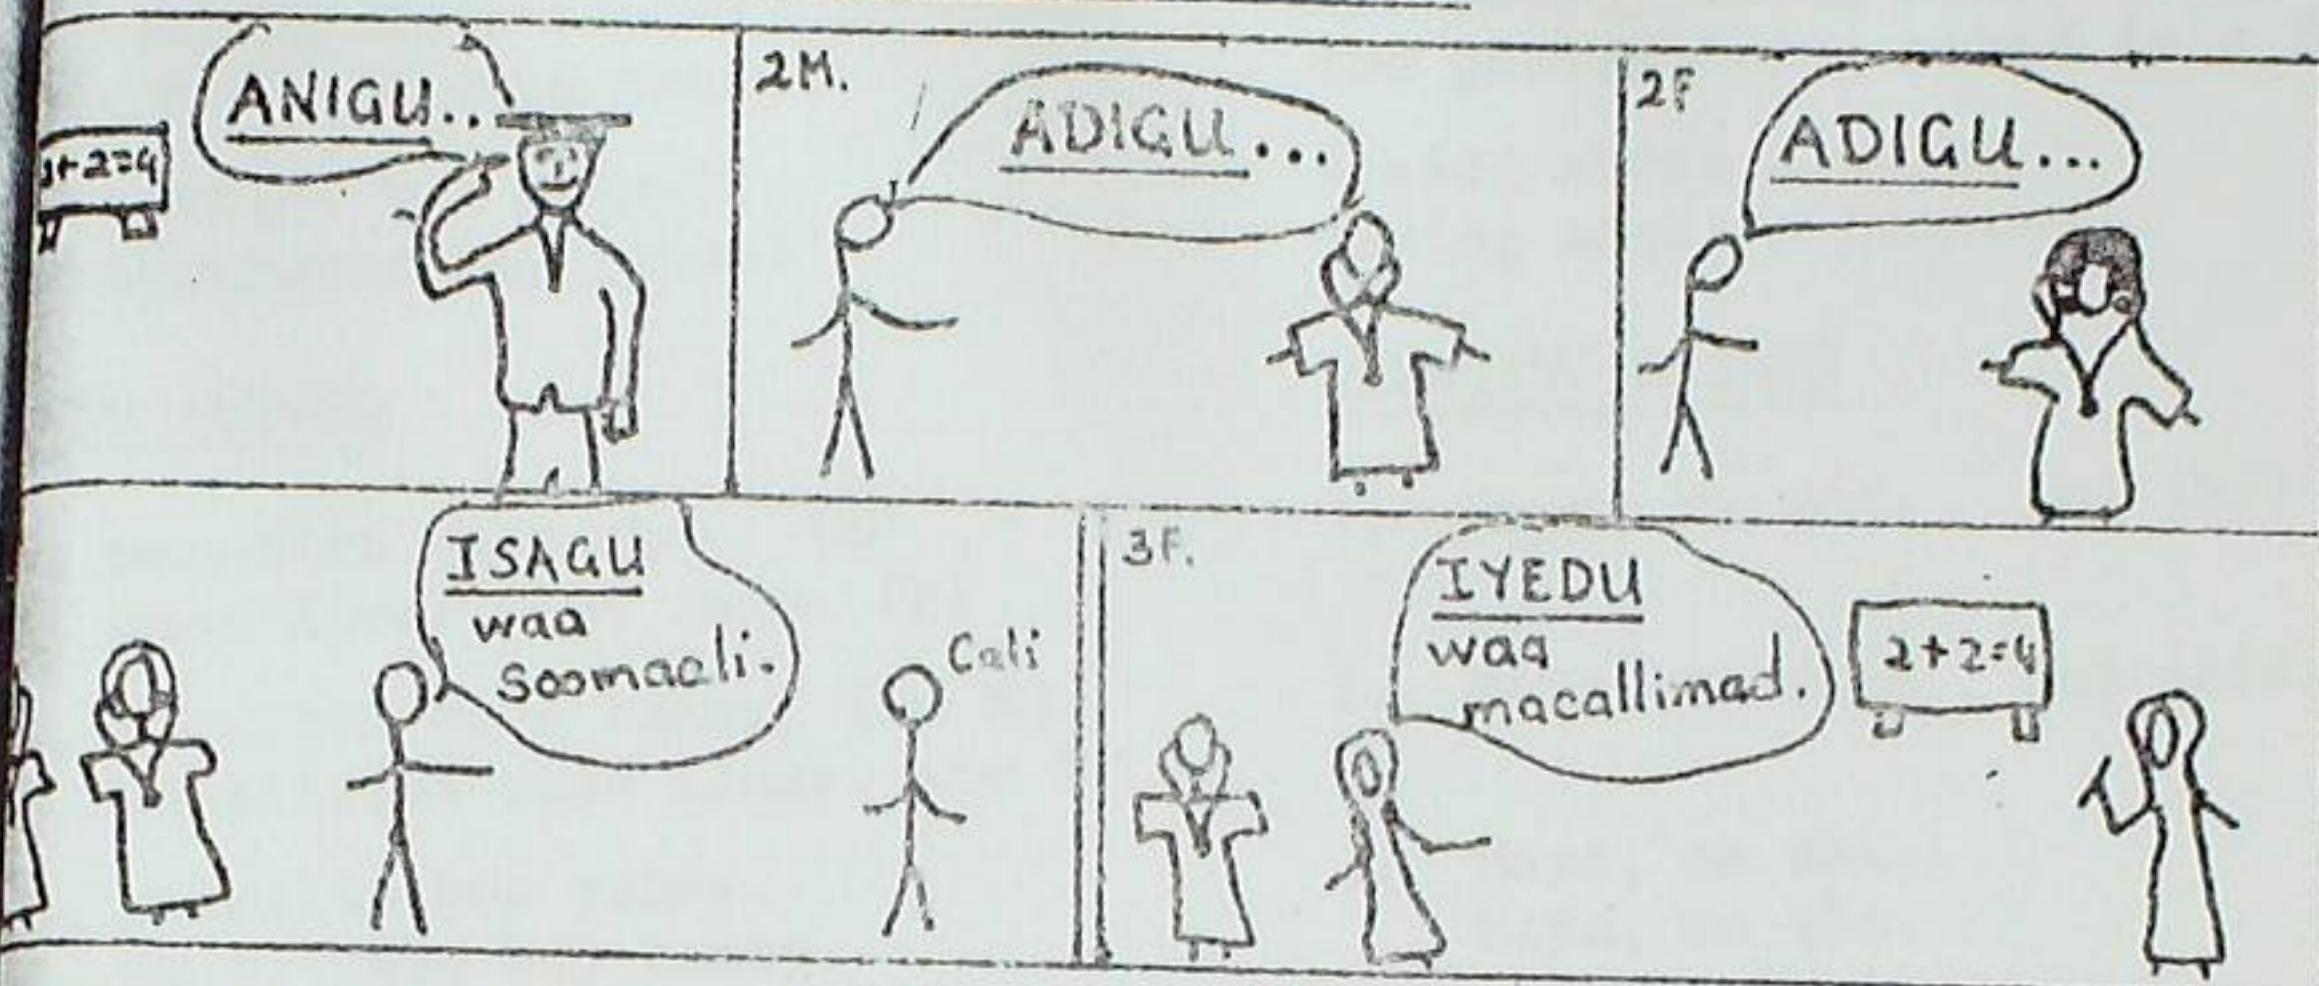

- a. Waxani waa maxay? Kani waa buug. (This is (a) book).
- b. Ii dhiib buugga. Waa kan buuggii. (Here is the book).

Answers to A:

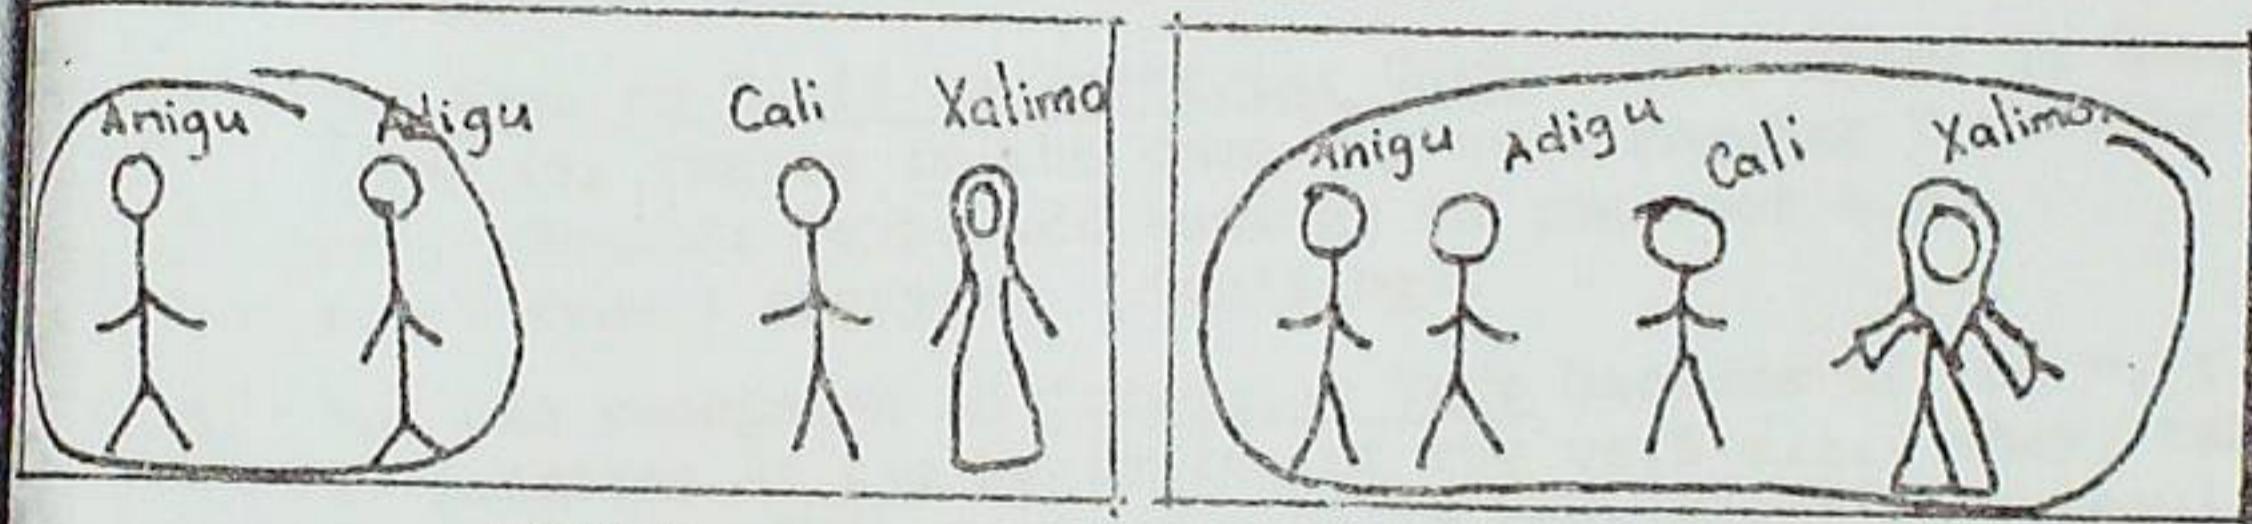

1. There are 2 genders: M - masculine, and F - feminine.
2. We can recognize it by the suffix (endings).
3. The M suffixes are: ka, ga, ha, and a.
4. The F suffixes are: ta and da.
5. They show that the object is defined: buugga = the book (definite article)
6. "Kani waa _____" or "Tani waa _____".
7. "Waa kan buuggii".
8. a. This is (a) book. b. Here's the book (which you asked me to show you).

NEGATIVE ANSWER

1. Maya, ma ahi. (mi ihi)
2. Maya, ma ahid. (mi ihid)
3. Maya, ma aha.
Maya, ma aha.

NOTES: 1. The root of this verb is "aho".

2. The Verb to Be is an Irregular Verb. This means it does not form its tenses in the same way as a Regular Verb like tag, sug, etc. Regular verbs add endings to the root e.g.,
sug + ayaa = sugayaa. (waiting).
3. You can recognize an Irregular Verb because of the -, t, y, t, n, y, patterns at the beginning of the verb e.g., ahay, tahay, yahay, tahay, etc. This pattern is usually consistent in Irregular Verbs like imo, (come) dheh (say).
4. The form of the verb does not change in the 2nd person (you) whether you speak to a male or a female. Both use:
"_____ baad tahay."
5. BUT: some Somali nouns indicate gender differences by a slight change in the form of the noun. Some feminine nouns add "ad" to the masculine form.

e.g., macallin (M)
aray (M)

macallimad (F)
ardayad (F)

6. Remember to use the noun of the appropriate gender to agree with the gender of the person being spoken to or about.

e.g.,   Adigu macallin baad tahay. (M)

Adigu macallimad baad tahay. (F)

We call this "Agreement".

SHORT FORMS USED IN THIS BOOK*

Anagu macallimiin baan nahay.

Idinku macallimiin baad tihiiin.

Iyagu macallimiin bay yihiin.

* This refers to the short forms of the Personal Pronoun Indicators which are used in this book
e.g., We - waan/baan
You - waad/baad
They - way/bay

- OTES: 1. Remember that the answer to a "We" question is sometimes "We..." and sometimes "You"
2. Remember "Agreement". When you use a plural verb, the nouns should be plural also: e.g., macallimiin, takhaatiir, niman, gabdho, dad.
3. The 3rd person plural negative "ma aha" is the same as the 3rd person singular negative.
4. The 1st person plural "baan nahay" is sometimes difficult to say because of the two "ns", and may sound like the singular "baan ahay". So "baannu nahay" can be used.

SHORT ANSWER: These are often used to answer a question: Example:

Questions:

Macallin maad tahay?

Takhtar muu yahay?

Takhtarad may tahay?

Takhaatiir maad tihiiin?

Macallimiin may yihiin?

Answers:

waan ahay.

waad tahay.

Haah, wuu yahay.

way tahay.

waan nahay.

waad tihiiin.

way yihiin.

THE PERSONAL PRONOUN INDICATORS (P.P.I.)

1. These indicate the person being spoken about in the sentence. i.e., I, you, he, she, me, you, they. These words are called "pronouns"
2. In Somali they are usually added to other words or particles in the sentence to help make a statement, a question or an answer to a question.

Emphatics P.P.I.	
Anigu	-aan
Adigu	-aad
Isagu	-uu
Iyedu	-ay
Annagu	-aannu
Inagu	-aynu
Idinku	-aydin
Iyagu	-ay
Maxaa u + -uu = Muxuu Muxuu u rabaa?	
Waa + -aan = waan Waan tegayaa.	
Baa + -aan = baan Macallin baan ahay.	
Waxaa + -aan = Waxaan Waxaan ahay macallin.	
Ma + -aad = miyaad (maad) Macallin maad tahay?	
Maxaa + -aad = maxaad Maxaad rabtaa?	

- ES:
1. Some of the words / verbal particles like "waa" and "baa" have no real meaning. But all simple sentences contain one of these words and the P.P.I. is often added to it.
 2. The P.P.I. is often added to the end of the defined noun which precedes it. e.g., Gurigaan tegayaa. Gurigaad tegaysaa.
 3. A "baa" (example 2) can never be the first word in a sentence. There must be other words before it.
 4. We use the Emphatic words with the P.P.I. when we want to emphasise someone or something. The Emphatics are often shortened and combined with "baa" to become: Annaa, Adaa, Isaa, Iyaa, Annaa, Inaa.
 5. Remember the P.P.I. you use must agree with the gender (M or F) and person (I, you, he, she) of the subject e.g., Gurigu wuu fiican yahay. (M subject)
 6. There are 2 pronouns (P.P.I.) to indicate "We"; -aannu which has an exclusive meaning, and -aynu which has an inclusive meaning. In this Book we will use the short form "-aan" to cover both meanings. This is the same form as the 1st person singular (I).
 7. The 2nd person plural pronoun -aydin meaning "you" is also shortened to "-aad", the same as the 2nd person singular.

T 6:9

SUMMARY SHEET 5USES OF THE PRESENT CONTINUOUS TENSEThere are two kinds of verbs:

1. Verbs of "State" or "Being" i.e., The verb to Be. They say that somebody "is" or "was" something e.g., I am a teacher. Anigu macallin baan ahay.
2. Action Verbs: They say that somebody is "doing" something, and this usually involves action or movement. e.g., come (kaalay) I am coming. (Waan imanayaa.)

The Present Continuous Tense: Tense means "Time"

The general meaning is that an action is going on continuously in the present time. e.g., I am writing. (I started to write 15 minutes ago. I am writing now, and I will continue for the next 15 minutes). You are reading. He is sleeping. She is working. etc.

In Somali this tense is mainly used in these ways:

1. We use it when we speak about actions which somebody is doing NOW at this present moment, e.g.,
 - Waad akhriyaysaa. You are reading this summary sheet now.
 - Wuu cunayaa. He is eating now, while you are reading.
2. We use it for actions which someone plans, or intends to do in the near future. e.g., I am going to visit my sister next week.
 - Wiigga dambe shaati cusub buu gadanayaa. He is going to buy a new shirt.
 - Bisha dambe Rooma baan tegayaa. (I have already bought the ticket).
3. We use it for actions not yet begun, but which we are going to do very soon! e.g.,
 - A: Buugga keen.

B: Haye, waan keenayaa. (But actually, he has not yet picked it up).

contd.....

S 5 contd....

1. Some verbs of sense, emotion and thinking, which are not used in the Present Continuous Tense in English (I see, I understand, I think so) are used in the Continuous Tense in Somali.

e.g., Waan maqlayaa. - I am hearing.

Waan garanayaa. - I am understanding. etc.

2. However, in Somali, some of the verbs in this group are not used in the continuous tense, but with the Verb to Be:

e.g., jecel (like, love) Waan jeclahay.

neceb (hate, dislike) Waan necebahay.

deggan (live) Waxaan degganahay Xamar.

leh (own) Guri baan leeyahay.

og (be aware of) Waan ogahay.

3. A few verbs are nearly always used in the Present Habitual/Indicative Tense. (See Units 11 - 15). These are:-

Waan joogaa. I am present.

Wuu jiraa. He exists (speaking about God)

Guriga buu ku jiraa. He is in the house.

These verbs "joog" and "jir" are sometimes more like verbs of state, being or existence than "action" verbs.

4. In Somali there are two verbs meaning "to want".

"doon" is used in the Continuous Tense: Buug baan doonayaa.

"rab" is used in the Habitual Tense: Buug baan rabaa.

"Rab" is almost never used in a continuous tense.

— "Soco" is often used in the Habitual tense with the meaning of going "now".

e.g., Xaggeed ku socotaa? Where do you go?
(Where are you going?)

5. "Waan fadhiisanayaa" means in Somali, "I'm in the act of sitting down". When the person is actually seated he would say: "Waan fadhiistay" (I sat). In English we would say "I am sitting down", but the action has actually been completed, so the past tense is used.

- ayaa

- ayaa
- aysaa

suffixes because they are added to the "root"
The "root" of the verb in Somali is the singular
Go! wait! etc. However, in Somali many verb
e.g., dhegayso, sii, samee; so see the explana-
method of adding verb endings beginning with a
ending with a vowel.

Group 1 Verbs: These end with a consonant. e.g., tag, sug, fur, etc.

The verb ending (-ayaa) is added directly to the imperative
e.g., tag + -ayaa = Waan tegayaa. (The "a" changes to "e" because it
sounds better.) This is called euphony.

Sug + -ayaa = Waan sugayaa.

Group 2 Verbs: These end in "o" e.g., imo, fadhiiso, seeko, etc.

The "o" usually changes to "a" and "n" is added before the (-ayaa) ending.
e.g., imo - ima + n + -ayaa = Waan imanayaa.

fadhiiso - fadhiisa + n + -ayaa = Waan fadhiisanayaa.

Sometimes "o" does not change to "a", but remains "o"

e.g., noqo = Waan noqonayaa; soco = Waan soconayaa.

Group 3 Verbs: These end in "i", "ee" "ii", "aa" e.g.,
celi, samee, sii, etc. These usually add "n" before the "-ayaa" ending.

Celi - celi + n + -ayaa = Waan celinayaa.

Words which end in "ee" change the "ee" to "ay" before the "n"

(e.g., samee - samaynayaa; shaqee - shaqaynayaa.)

Sometimes a "y" is added instead of an "n" e.g., akhri - akhriyayaa.
(But akhrinayaa is also used).

TO HAVE AND TO NEEDNOTES ABOUT "HAVE"

There are several verbs in Somali which convey the meaning of having or possessing e.g., hay, hayso, qab, qabo, laho / lahow.

The root of this verb is "hayso" and it is a Group 2 Verb.

It conveys the idea of having something in your possession at the time of speaking, though it may not be something which you actually own.

This verb is usually used in the Present Habitual Tense.

The negative endings follow the pattern for qualifiers (Adjectives) used with the Verb to Be, e.g. Ma jecli. Ma dheerid. Ma weyna etc.

SUMMARY SHEET 8ABOUT ADJECTIVES

MEANING: An adjective is a word which tells us something more about a noun.

e.g., A tall man. A new car

POSITION: a. In Somali, the adjective comes after the noun it describes,

e.g. Nin dheer. (A tall man). Waa gaadhi cusub.
(It's a new car)

b. If several adjectives are used to describe the same noun, they are joined by "oo" if the noun is not defined,

e.g. Nin dheer oo dhuuban. (A tall, thin man)

If the noun is defined, the adjectives are connected by "ee"
Ninka dheer ee dhuuban. (The tall, thin man.)

USE:

a. The simplest way to use them is with the "waa" particle and the noun.

e.g., Iyedu waa gabar quruxsan. (She is a beautiful girl).

b. They are also very often used with the waa + the Personal Pronoun Indicator, and the correct part of the Verb to Be.

e.g., Anigu waan dheerahay. (I am tall)

Iyedu way quruxsan tahay. (She is beautiful.)

NOTICE that the meanings of a. and b. are slightly different.

AGREEMENT: a. If the subject is singular, (I, You, He, She), the adjective does not change its form.

e.g., Waan dheer ahay, (I)

Way dheer tahay. (she)

Wuu dheer yahay. (he)

b. With plural subjects (We, You, They) some adjectives change their form and repeat the first syllable

e.g., Way dhaadheer yihiin (They are tall).

Way waaweyn yihiin. (They are large).

Way yaryar yihiin. (They are small).

However, not all adjectives behave in this way. The common ones are dheer, weyn, yar, (yaryar), cad (cadcad), madow (madmadow), wanaagsan, - (wanwanaagsan). These are true or radical adjectives. You would be understood if you used the singular adjective with the plural of the Verb to Be, but try to hear and use them correctly.

NEGATIVES: The Negatives follow the pattern of the endings of the negative of the Verb to Be.

Ma dheeri.	(ma ihi)	Ma dhaadheerin.	(ma ihin)
Ma dheerid.	(ma ihdi)	Ma dhaadheeridin.	(ma ahidin)
Ma dheera.	(ma aha)	Ma dhaadheera.	(ma aha)

6. MEANINGS: Somali adjectives can have several meanings according to how and when they are used.

-- dheer can mean tall, high, deep, long.

e.g., Ceelku wuu dheer yahay. (The well is deep)

Usha way dheer tahay. (The stick is long)

-- weyn can mean big in size, large in area or numbers, and important in position.

e.g., Sanduuqu wuu weyn yahay. (The box is big)

Dhulku wuu weyn yahay. (The country, ground is large)

Nin weyn buu yahay. (He is an important man)

-- yar can mean small in size or amount, few in number, or unimportant in position.

e.g., Gabadhu way yar tahay. (The girl is small in size)

In yar i sii. (Give me a small portion, amount)

Dadku way yar yihiin. (The people are small in number)

There are also some idiomatic and special uses of some of the adjectives. Try to hear and use them.

e.g., Way kulushahay.

She is nervous, excited.

Wuu qabow yahay.

He is calm, relaxed, well off.

NOTE: a. Do not use "xun" when referring to people. It is better to use a negative and say "Isagu ma wanaagsana".

b. With 1st person singular (I) the adjective and the Verb to Be are written together e.g. Waan dheerahay. Waan fiicanahay.

THE PRESENT HABITUAL TENSE

USE 1. We use the Present Habitual or Present Indicative Tense to speak about actions which are done regularly, habitually or at certain regular intervals in time.

e.g., He drives his car to work every morning.

She usually goes to Rome every year.

2. We use the Present Habitual Tense when we want to make a polite request or offer, to make a suggestion or to ask permission.

e.g., Shall I go? What am I to do?

See Unit 14:7 for more about this.

3. In Somali, some verbs are almost always used in this Tense, rather than the Present Continuous Tense.

e.g., *rab*, *hayso*, *jir*, *joog*. See Unit 15:1 for more about this.

ACCOMPANYING ADVERBS: Some of the adverbs used with this tense are: *maalin walba*, *wiigii walba*, *bil walba*, *marar badan*, *kol kasta*, *wakhti kasta*, *kolkol*, *marmar*, *had iyo goor*, etc. The adverb usually comes near the beginning of the sentence.

FORM: The endings of this Tense do not appear to be as consistent in formation as those of the Present Continuous Tense. However, there are reasons why each verb conjugates in a particular way, although you do not need to know these reasons. Contractions, combinations of certain consonants and euphony (sounds which go together), are the main reasons for these differences.

CONJUGATION "PATTERN". As with the Present Continuous Tense, the A, B, A, B, C, B + n, A + n pattern remains consistent except with Irregular Verbs like *sho* (Verb to Be) *imo* (come) *dheh* (say). However, like the Present Continuous Tense, this "pattern" is only true when the double "aa" is used at the end of the verb.

NEGATIVE: The Negatives end in "o" except for the 2nd and 3rd plurals which do not change, and the 2nd person singular (You) which ends in "id".

I don't wait ...

Anigu ma sugo.

Adigu ma sugtid.

Isagu ma sugo.

Iyedu ma sugto.

Annagu ma sugno.

Idinku ma sugtaan.

Iyagu ma sugaan.

POSSESSIVES
(Possessive Adjectives)

MEANING: This shows that somebody possesses or owns something, or that something belongs to somebody e.g., Cali's books, his wife my house, their goat etc.

FORM:

In Somali, there are several ways to show possession.

1. We can say: Buuggan anigaa leh. (Anaa leh)
 Kaas isagaa leh. (Isagaa leh)

Sometimes "iska" is inserted between the Emphatic and "leh" which gives emphasis to the person possessing e.g., Anaa iska leh. (Notice the pronunciation change.)

2. We can say: Kani waa buuggii Cali.
 Tani waa lacagtii Axmed.
 But this is used most often if the possessor is 3rd person singular, (he, or she).
3. We can also add a possessive adjective to the end of the noun which stands for the thing which is possessed. It is added to the definite article suffix -ka, -ga, -ha, etc.

Waa ninka buuggiisii - The book belonging to the man (his book)
Waa Maryan buuggeedii - The book belonging to Maryam. (her book)

NOTE: The ending on the suffix may vary (iisii, iisa, iisu) according to preference or to position or to time.

AGREEMENT: The Possessive suffix must agree with the possessor in number and gender.

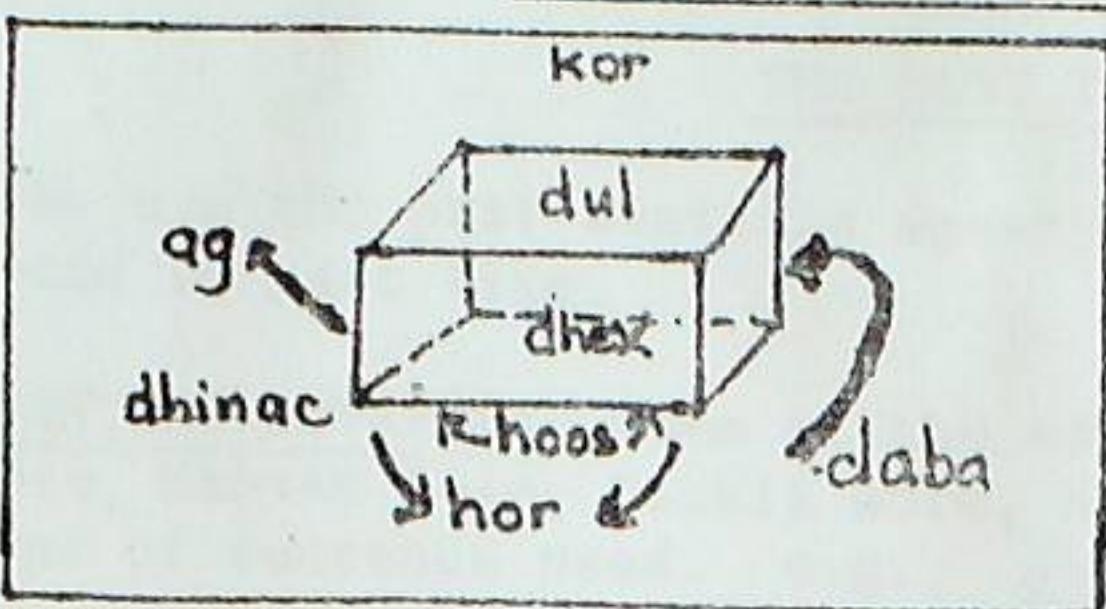

e.g., Waa ninka buuggiisii. The possessor is M. singular (the man)
 Waa iyaga buuggeedii The possessor is 3rd person plural
 "they"

NOTE: 3rd person plural "they" has the same ending for M and F.

SPELLING DIFFERENCES: Note the slight difference in spelling according to whether the suffix refers to a M. or F. noun. This is only in 1st person singular and plural and 2nd person singular. The M. suffix contains "g" (-aygii) and the F. suffix contains "d" (-aydii).

Buuggan yaa leh?	Short Form	Yaa leh lacagtan?	Short Form
buuggaygii *		kaygii *	lacagtaydii *
buuggaagii *		kaagii *	lacagtaadii *
buuggiisii		kiisii	lacagtiisii
buuggeedii		keedii	Waa lacagteedii
buuggayagii*		kayagi*	lacagtayadii*
buuggeennii		keennii	lacagteennii
buuggiinnii		kiinnii	lacagtiinnii
buuggoodii		koodii	lacagtoodii

Waa	buuggaygii *	Waa	kaygii *	lacagtaydii *	taydii *	It is useful to know the Inclusive and Exclusive use of "Our".
	buuggaagii *		kaagii *	lacagtaadii *	taadii *	
	buuggiisii		kiisii	lacagtiisii	tiisii	
	buuggeedii		keedii	Waa lacagteedii	teedii

	buuggeennii		keennii	lacagteennii	teennii	
	buuggiinnii		kiinnii	lacagtiinnii	tiinnii	
	buuggoodii		koodii	lacagtoodii	toodii	

WORDS THAT INDICATE POSITION

The function of these words is equivalent to that of an "adverb of place". e.g., on the table, near the door, under the tree.

In Somali they can also be different parts of speech.

1. As Verbal Prefixes: They give the location or position of a person or object, and they stand before the verb.

e.g., Ninku guriga buu hor joogaa.

Buuggu miiska buu dul yaal.

Iyedu albaabka bay ag fadhida.

Negatives: The verbal prefixes remain in position in front of the verb and the "ma" negative comes before it.

e.g., Ma hor joogo. Ma dul yaallo. Ma ag fadhido.

2. As Nouns they take a M or F. definite article suffix, and perform the function of adverbs of place.

e.g., horta, dusha, dhexda, agta, hoosta, dabada, korka, dhinaca.

Xagguu fadhiyaa? Dhexda buu fadhiyaa. (He's sitting in the middle.)

Magacaaga dusha/korka ku qor. (Write your name on the top)

3. We can also add a Possessive Adjective to the defined noun to give the meaning of "of" as in an adverb of place.

Ninku guriga hortiisa buu joogaa. - the front of the house

Buuggu miiska dushiisa buu yaal. - the top of the table

4. When we add the Possessive Adjective (iisa, eeda, ooda etc.) to the noun suffix, the singular suffix has to agree with the gender of the person or thing which is the possessor; and all of them have to agree in number.

e.g., Guriga hortiisa buu joogaa. - the front of the house (M)

Shineemada horteeda buu joogaa. - the front of the cinema (F)

5. Verbs: are also formed from some of these nouns.

e.g., Sagaal baa toban ka horeeyaa. (comes before)

Garissa baa u dhexaysa Nayroobi iyo Waajir. (between)

- Learn to look for meanings in the many related words and phrases, as you see and hear them:

e.g., Markii hore -formerly
Horaynta -the beginning
Anigaa ugu soo horeeyey. -I came first.
Xamar hore buu u yimid. -He has been to Mogadishu before.
Ka hor jeeda - opposite

Bishii hore -last month
Horumarka -the progress
Hore u soco - go straight ahead

THE PAST TENSE

USE: We use the past tense to speak about events that happened and have been completed in past time.

ACCOMPANYING ADVERBS: Some of the adverbs used with this tense are: Shalayto, Dorraato, Habeen hore, Bishii hore, Sannadkii hore, etc. Position depends on the type of sentence used. e.g., Shalayto waan imid. Waxaan imid shalayto.

FORM: The past tense is formed in the same way as the Present Habitual (Indicative) Tense, except for an "ay" ending instead of "aa" in the singular and "een" instead of "aan" in 2nd and 3rd plural. Compare Summary Sheet 7 on Pages 107 and 108 in the Student's Book.

A: Here are some examples of regular Past Tense Conjugations.

Group 1 (sug)

Waan sugay.
Waad sugtay.
Wuu sugay.
Way sugtay.
Waan sugnay.
Waad sugteen.
Way sugeen.

D: Irregular Verbs* There are a number of irregular verbs which conjugate a different way from those above.

Verb to Be (aho/ahow)

-- baan ahaa.

-- baad ahayd.

-- buu ahaa.

-- bay ahayd.

-- baan ahayn.

-- baad ahaydeen.

-- bay ahaayeen.

imow/imo (come)

Waan imid.

Waad timid.

Way tidhi.

Waan nidhi.

Waad tidhaahdaen,

Way yidhaahdeen.

Negative:

Ma ahayn.

Ma iman

Ma odhan.

NEGATIVE: Past Tense Verb Negatives do not conjugate. They remain the same for each person. Group 1 Verbs end in "in" e.g., Ma sugin. Group 2 Verbs end in "an" e.g., Ma iibsan. Group 3 Verbs end in "n" or "yn". Sometimes the P.P.I. is placed between the negative particle "ma" and the negative of the verb.

sug (Neg)

Anigu ma sugin.

Adigu ma sugin.

Isagu ma sugin.

Iyedu ma sugin.

Annagu ma sugin.

Idinku ma sugin.

Iyagu ma sugin

iibso (Neg)

Ma aan iibsan.

Ma aad iibsan.

Ma uu iibsan.

Ma ay iibsan.

Ma aan iibsan.

Ma aad iibsan.

Ma ay iibsan.

sii (Neg)

Ma siin.

ABOUT VERBAL PARTICLES

These are: ku, ka, u and la.

USE: 1. They are used with different verbs to give a variety of meanings.
Here are some examples:

ku --	Waxaan ku dhashay, Muqdisho.	(in)
	Wuxuu gabarta ku yidhi, "Kaalay".	(to)
	Wuxuu ku tegay lug.	(by means of)
ka --	Waxaan ka imid suuqa.	(from)
	Waxaan ka shaqeeyaa xafiis.	(in/at)
	Wuxuu ka warramay jidka.	(about)
u --	Cali u sheeg.	(to)
	Cali u samee.	(for)
la --	Axmed, Cali wuu la tegay.	(with)
	Wuxuu la hadlay xaaskiisii.	(to)

2. Sometimes 2 or more verbal particles combine and then take another form: e.g.,

-- Isagu hooyadiis buu uga sheekheyey.(u + ka)
(He told (to) his mother about it.)

3. They also combine with the object pronouns and again change their form:

The object pronouns: i - me; inna, na - us;
ku - you; idin - you; (pl)

-- Wuu ii sheegay.	-	He told me.	(i + u)
-- Wuu iga tegay.	-	He left me.	(i + ka)
-- Wuu kuu sheegay.	-	He told you.	(ku + u)
-- Wuu kugu yidhi.	-	He said (to) you	(ku + ku)
-- Wuu noo sheegay.	-	He told us.	(na + u)
-- Wuu naga tegay.	-	He left us. (pl.)	(na + ka)
-- Wuu idiin sheegay.	-	He told you (pl.)	(idin + u)
-- Wuu idinla tegay.	-	He went with you (pl.)	(idin + la)

NOTICE that the object pronoun comes before the Verbal Particle.

4. Sometimes there can be more than one verbal particle to combine with the object pronoun.

Af Soomaali igula hadal. igula = i + ku + la
Speak to me in the Somali language. (me in with)

contd....

S.S. 13....contd.

5. They also combine with the impersonal "la" e.g., Cali waa loo sheegay; (Cali was told) Cali xafiiska baa lagu arkay. (Cali was seen in the office).

NOTES: 1. Some verbs are almost always associated with certain particles. It is useful to learn them together.

e.g., - u sheeg	- u dhiib	- u yeedh	- u malayn
- ku jir	- ku yidhi	- ka warran	- ku saabsan

Note that we say: Guriga tag - Co to the house

But: Cali u tag - Go to Cali.

2. They are often used with the adverb particles "sii" and "soo". "Soo" has the meaning of "in this direction", "go and return", "Sii" has the meaning of "in that direction", "away from", "continuing".

-- Guriga wuu ka soo baxay.	He came out of the house.
-- Qalinka wuu ii soo celiyey.	He returned the pen to me.
-- Wuu ka sii hadlay.	He continued to talk about (it).

NEGATIVE: The verbal particle, and combinations of it, goes before the "ma" Negative particle, and they are written together, as one word.

-- Isagu ilama hadlin. --Isagu Cali uma sheegin.

-- Cali guriga kuma jiro. -- Maryan nooma iman.

But the adverb particles "sii" and "soo" come directly before the verb: Weli qalinka iguma soo celin. Waxaas kama sii hadlin.

NOW TRY TO FIND THE MEANINGS OF THESE SENTENCES:

1. "Albaabka naga fur! Guriga baan soo galaynaa."

2. "Cuntada may kugu fillan tahay, mise in kale baan kuu keenaa?"

3. "Cumar muxuu iduin sheegay?" "Wuxuu noo sheegay warkii."

4. Wuu naga cadhoonayaa, oo maanta nalama hadlin.

5. "Halkan igu sug. Ninkaas baa ii yeedhayaa. Waan soo noqonayaa."
